**Light Purple**  
**White**  
**Only \$ 5 each.**

### **PLANTING GUIDE**

1. Plant tree in rich composted soil. Do not use any fertiliser in the planting hole.
2. After planting, use **fertiliser** , such as **Seaweed Kelp Fertiliser, Flower & Fruit Fertiliser, or Citrus Food** on top of the ground, NOT in the planting hole.
3. After planting, use 1 cup of either **Garden Lime** (for acid clay soils), **Dolomite** (for volcanic soils), or **Gypsum** (for heavy clay soils), on top of the ground, NOT in the planting hole.
4. Keep tree clear of grass & weeds for 1 metre from the trunk of the plant.
5. Mulch with grass or straw 200mm deep on top of the ground, over the cleared area.
6. Water every day after planting for 2 weeks, decrease watering as the plant becomes established.
7. Fertilise trees every 3 months with **Seaweed Kelp Fertiliser, Flower & Fruit Fertiliser, or Citrus Food.**
8. Use **Sulphate of Potash**, every 3 months for plant health & to increase flowering & fruit quality.
9. Use **Boron** every 3 months for plant health & to increase flowering & fruit quality
10. Use **Iron Chelates** every 3 months for plant health & to increase flowering & fruit quality
11. Use **Garden Lime, Dolomite, or Gypsum** every 3 months for plant health, and to sweeten the soil.
12. Use **Naturalure Fruit Fly TRAP BFA Certified Organic** for fruit fly **monitoring** August to May.
13. If Fruit Flies are present, then Use **Naturalure Fruit Fly BAIT BFA Certified** for fruit fly control.
